IN REPLY REFER TO

September 18, 1998

New Jersey Department of Environmental Protection
Attention: Ms. Donna Gaffigan, Case Manager
Bureau of Federal Case Management
401 East State Street
PO Box 028
Trenton, NJ 08625-0028

Dear Donna:

This letter confirms our telephone conversation on 15 September 1998 and documents the disposition of Environmental Baseline Survey (EBS) Phase II Report for Parcel B for Area of Concern (AOC) 72 at the Naval Air Warfare Center, Aircraft Division Trenton, Ewing, NJ.

Enclosure (1) is a report dated 18 August 1998 describing the follow-up effort involving a pilot test conducted by Battelle attempting to extract any free product that potentially existed at this site based on an earlier visual inspection of an existing monitoring well in this area. The report concludes that there is no recoverable free product in the area which is in the vicinity of Installation Restoration (IR) Site 8. Appendix A of Enclosure (1) is the Draft Test (Work) Plan to conduct the work prepared by Battelle forwarded separately by cover letter dated 2 June 1998 for Navy review before any field work was performed.

The Navy believes that this should close out AOC 72 and that no further action is required. A copy of this letter and Enclosure (1) will be provided for the Administrative Record.

Please contact Mr. Jeff Dale, Code 1822/JD at (610) 595-0567 x120 or myself, Code 1811/SB at (610) 595-0567 x144 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve B", is located below the word "Sincerely,".

Steve Beebe
